

FASTRAX[®] AUTOMATIC GAS SNOW CONTROL SYSTEM

A Complete Automated Sensing and Control System for Existing Gas Systems

**State of the Art
Automatic Energy Saving Controls**

**A Control System
Which Turns Heaters OFF
When Not Required**

**Low Voltage Gas Retrofit
Control Package**

**Automatic Start With
Run Limit Time**

**FASTRAX[®] PROVEN
Energy Saving
Controls**

Control Panel

FA05 Installation
Accessory Kit

FAS1A Snow Sensor with
FMA5 Support Mast

QTY REQ'D	PART NO FASTRAX [®] PART NO	DESCRIPTION
1	FGC05A	Fastrax[®] Low Voltage Gas System Control Panel: Automatic low voltage override control for existing gas heater systems. 75 watt maximum capacity, (2) 120 volt AC terminals provided for line feed. Accepts FAS1A and/or FJS1A ground snow sensor input. (1) 2 Amp output contact provided rated 12 - 120 volt AC/DC. Enclosure size: 14"H X 12"W X 6"D.
1	FAS1A	Fastrax[®] Snow sensor for aerial installation: Sensor includes integral 1/2 inch NPT mounting post with union attached. 12 Foot, 600 Volt rated, shielded connection cable attached.
1	FJAM200SUP	Fastrax[®] Junction Box Snow Sensor Assembly: Includes Fastrax Pedestal Ground Sensor, installation instructions, and FJAS24F support post assembly.
1	FMA5	Fastrax[®] Mast Assembly: Structural 1/2 inch rigid conduit mast assembly for FAS1A aerial snow sensor.
1	FA05	Fastrax[®] Installation Accessory Kit: Includes test and tool accessories.
